## MEDIA RELEASE

### St Margaret Mary's College students volunteer to packing Birthing Kits.

On Friday, 31 July, St Margaret Mary's College will again join with their partners, Townsville ZONTA Metro, to facilitate the packing of 600 birthing kits. St Margaret Mary's is not new to this venture, having already sent out over 20,000 kits through the last fourteen years of service to this wonderful global action.

In 2020, the Birthing Kit Foundation Australia changed its name to Kit International.

*We live in a world where tragically 295,000 women die every year from causes related to pregnancy and childbirth and close to 2.5 million babies die within their first month of life.*

*A world in which families and communities thrive relies on equal opportunity for women and girls. The greater the contribution of women and girls in designing—and driving—their own solutions, the sooner we will all share the benefit of a transformed world. <https://www.kit.org.au/>*

At St Margaret Mary's College, we are proud to acknowledge our contribution to this amazing work supporting our formal neighbours all over the world.
