## MEDIA RELEASE

### Sisters of Saint Joseph of the Sacred Heart Launch New Look Website

The Sisters of Saint Joseph are delighted to launch their new look website: [www.sosj.org.au](http://www.sosj.org.au).

The new website design reflects the energy and charism of the Josephites while giving expression to the Congregation's mission. The site is now more user-friendly and engaging, making it easier to navigate. A new Stay Connected section on the home page highlights all the great stories and news content shared by the Sisters and their supporters.

Working with the Congregational Communications Committee, it was decided that the website's content structure would be well served by creating four pillars across the Menu with four key headings and drop-down options which link to additional website pages:

- Founded to Respond
- Responding to Need
- Responding in Prayer
- Responding Together

Through these core themes, the website reflects that the Sisters of Saint Joseph are a living, vibrant and active organisation - providing insights and resources on contemporary issues and the Josephites' presence in everyday life.

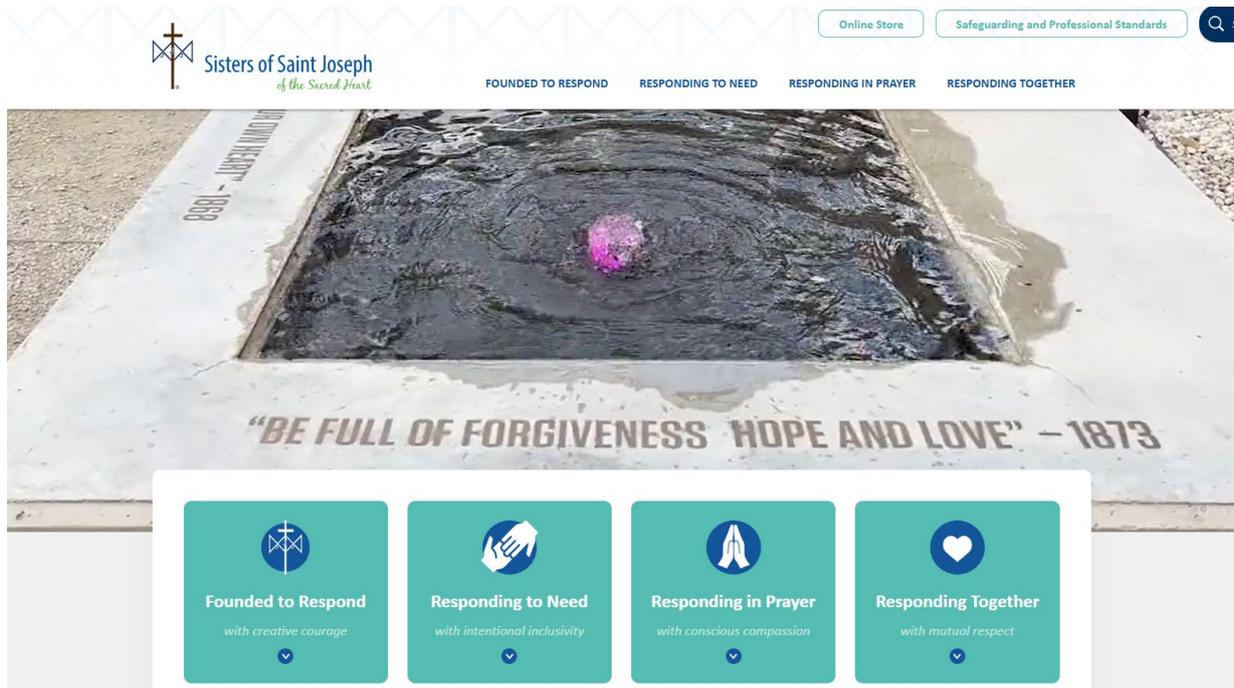

A banner video at the top of the website's home page has also been created, which aims to encapsulate the essence and mission of the Sisters of Saint Joseph and supporters. This is the first in what will be a series of videos, which will be swapped around throughout the year or during major Feast Days.

The Sisters of Saint Joseph invite you to visit the new look website and discover prayer and spirituality resources, reflections, opportunities to get involved, and the latest news from the Congregation.
